- Special menu for the corporate guests of the hotel, conformable to their budget

- Business-lunch or dinner - with us the business talks will be dressed with excellent food and drinks

Here are our new offers in step with the latest tendencies in the restaurant branch:

- **Business breakfast** - this is a new formula, which replaces increasingly the traditional business-lunch. According to the specialists this is the best format for meetings in the early hours of the day and is combined often with different presentations and press-conferences. With us you will have the possibility to carry your contacts outside the strict business circle in one more informal background, where the communication between the participants is easier and the smiles more frequent. This is a contemporary format, combining the useful with the pleasant, which is accepted extraordinary positively from clients and partners.

- **Brunch** – its conception is set in the name - something between breakfast and lunch. In our country it is popular mainly as a Sunday event for the family or friends. It is usually organized in the time between 11.00 a.m. and 15.00 p.m. during the weekends or holidays. In KENDROS restaurant you can organize one amusing lunch meeting with friends or your family event. The Brunch is also other possibility for a business meeting, which is not set up in such early hour for a breakfast, but it is not too late to be lunch. We offer variety of dishes, which are not included in the standard menu of the restaurant - the standard elements for one breakfast, as well as salads, main courses, desserts, wide choice of drinks, champagne and sparkling wines.

Experience your greatest moments - cocktails, parties, family celebrations, wedding in the paradise nook near the center of the city!
